Lora,
Thanks for the info.
I will call you today to discuss and coordinate.
Karen is available Nov. 16-17. Trish was out yesterday and have not been able to coordinate yet.
Mike

Subject: ATSDR R3 site visit plans to Dimock area

Hi, Mike

Karen and I met briefly today and she asked that I alert you that ATSDR R3 (Bob H) was planning a site visit up in the Dimock area next week in response to all the community concerns that were directed to us in parallel to all the EPA communications. His goal was to gather more information and provide a verbal public health interpretation of the water sampling data with the individual residents that shared data with him. I don't believe we knew you all were making your own plans for a similar trip?

Bob is presenting at the Beyond Translation Forum right now but I will try to reach him later this afternoon to discuss the possibility of combining our site visit plans. Do you have a proposed date(s) for EPA's trip up there?

Thanks, Lora
